Section: Corporate	

ACCOUNTABILITY TO VISION STATEMENT

Flagstaff County on behalf of its citizens owns a wide range of assets. Risk management seeks to preserve the value of those assets and manage the uncertainties inherent in municipal operations. In doing so, it allows for the management of resources for the greatest benefit and minimizes the adverse effect of accidental loss upon the organization.

POLICY STATEMENT

Flagstaff County will undertake a comprehensive risk management approach to business.

Flagstaff County will support and participate in the Jubilee RiskPro Program. The goals of this program are:

- The active control and reduction of our insurance and other risk related costs;
- The protection of the interests of the stakeholders in our community;
- The prevention of losses arising from damage to county assets and liability claims;
- The reasonable assurance of uninterrupted municipal operations and delivery of services to the county;
- When losses cannot be prevented, to ensure that the impact of losses on the county is as minimal as possible.

Additional Named Insured (ANI) must be a registered non-profit organization, society or charitable organization. Council must approve all ANI's that formally request insurance coverage through the Flagstaff County insurance policies.
